

THE COLLEGES OF MEDICINE OF SOUTH AFRICA

Incorporated Association not for gain
Reg No 1955/000003/08

Part I Examination for the Fellowship of the
College of Dentistry of South Africa - Prosthodontics

27 June 2019

Paper 2

Physiology

All questions are to be answered in one book

SECTION B

- 1 a) A young man has a blood pressure of 130/73 mm Hg. What is his pulse pressure? What is his mean arterial pressure? How did you calculate each of those pressures? (5)
b) Outline the compensatory mechanisms that maintain blood pressure on rising from the supine to the standing position. (10)
[15]
- 2 By means of a diagram, illustrate the relationship between the partial pressure of O₂ in blood and the percent saturation of haemoglobin at rest, and the changes produced in this relationship by exercise. [10]
- 3 Describe the non-urinary (hormonal) functions of the kidney. [15]
- 4 Write short descriptive notes on
 - a) Taste. (5)
 - b) Gastric juice. (5)
 - c) ABO blood group system. (5)[15]

College of Dentistry of South Africa - Prosthodontics

28 June 2019

Paper 3

Principles of pathology including microbiology

All questions are to be answered in one book

SECTION B

- 1 Discuss thrombosis under the following headings
 - a) Pathogenesis. (6)
 - b) Predisposing factors (Virchow's triad). (9)
 - c) Fate of the thrombus. (5)[20]

- 2 A 50-year-old systemically healthy patient sustained a bee sting on his hand 2 hours ago. He now presents with periorbital oedema and stridor
 - a) Name the different types of hypersensitivity reactions. (4)
 - b) Which type of hypersensitivity reaction did this patient suffer? (2)
 - c) Explain the molecular and cellular events that occurs in these types of reactions. (9)[15]

- 3 Discuss diabetes mellitus under the following headings
 - a) The differences between the 2 major forms. (7)
 - b) Vascular complications associated with this disease. (8)[15]
[50]
