

THE COLLEGES OF MEDICINE OF SOUTH AFRICA

Incorporated Association not for gain  
Reg No 1955/000003/08

Part II Examination for the Fellowship of the  
College of Pathologists of South Africa Oral Path

22 March 2011

Paper 1

(3 hours)

*All questions are to be answered. Each question to be answered in a separate book (or books if more than one is required for the one answer)*

*Al die vrae moet beantwoord word. Elke vraag moet in 'n aparte boek (of boeke indien meer as een nodig is vir 'n vraag) geskryf word*

---

- 1 Give a critical appraisal of potentially malignant lesions of the oral mucosa and how you would assess the risk of malignant change of the oral mucosa in a patient with potentially malignant disease. [25]
- 1 *Gee 'n kritiese oorsig van potensiële maligne letsels van die mondmukosa en hoe u die risiko van maligne veranderinge van die mondmukosa in 'n pasiënt met potensiële maligne siekte sal bepaal.* [25]
- 2 Explain the pathogenesis, clinical and radiological features of malignancies that originate from odontogenic epithelium. [25]
- 2 *Verduidelik die patogenese, kliniese en radiologiese beelde van maligniteite wat van odontogene epiteel oorsprong neem.* [25]
- 3 Write a clinico-pathological overview, including the histological differential diagnosis of aggressive fibromatosis of the head and neck. [25]
- 3 *Skryf 'n klinies-patologiese oorsig, insluitende die histologiese differensiële diagnose van aggressiewe fibromatosis van die kop en nek.* [25]
- 4 Write an overview of plasma cell mucositis and its histological differential diagnosis. [25]
- 4 *Skryf 'n oorsig oor plasmasel mukositis en die histologiese differensiële diagnose daarvan.* [25]
